Water Supply to Hospitals

(Source: WV Public Health Threat Preparedness Director, as of 0949; 10 January 2014)

All water supply currently adequate. Hospital water supply monitored by WV Health. Status below:

- Women's and Children's Hospital (2 day supply and tanker truck on site)
- St Francis Hospital (2 day supply)

- Highland Hospital (2 day supply)
- Thomas Memorial (Received water supply last night. Submitted request for more water today.)

Dialysis Centers

(Source: ESRD Network 5 Director of Operations as of 1045, 10 January 2014)

11 facilities in service area; 6 are impacted. Details below:

ESRD has spoken to all 11 facilities in the 9-county area affected by the Elk River chemical spill.

6 facilities have been impacted:

- BMA Charleston (140 pts) – closed yesterday, awaiting water truck from FMC to supply facility, patients, staff (scheduled to arrive by noon Friday, 1/10/14)
- FMC Kanawha (80 pts) – closed yesterday, awaiting water truck from FMC to supply facility, patients, staff (scheduled to arrive by noon Friday, 1/10/14)
- Greater Charleston (80 pts) – closed, as is back-up facility, seeking alternate water source; NW offered assistance and requested status updates
- Greater Boone (23 pts) – closed, as is back-up facility, seeking alternate water source; NW offered assistance and requested status updates
- Charleston Area Medical Center (acute) – had 18 pts scheduled for today but determined no urgency to treat so canceled; seeking alternate water source; NW offered assistance and requested status updates
- WV (Logan) Dialysis (39 pts) – closed; diverting pts to S. Williamson Dialysis in Kentucky

5 facilities have not been impacted:

- J. Robert Pritchard

- FMC River Hills
- Cabell Huntington Hospital
- FMC Hurricane (different water source)
- FMC Ripley (different water source)

Food Safety

(Source: FDA, Public Health Sanitation Division, as of 0940, 10 January 2014)

- Aware of one major food manufacturing firm (United Dairy/milk processing plant) in operation at the time of the incident. FDA Milk Program Manager has been in contact with this facility and advised them to hold all product produced after 4:30 pm Thursday January 9, 2013 for testing.
- FDA staff in the process of communicating with the other food manufacturing firms in the affected areas today to see if any others were producing at the time of the incident and advise them accordingly.
- Contacted 9 local health departments in the affected area who were contacting the retail establishments in the affected area overnight.
- The WV Division of Homeland security contacted all of the correctional facilities and state institutions in the affected area.
